

May 2019 News and Happenings!

If you're a regular reader of our monthly updates, you may recall that we boasted a bit in the last issue about the recent expansion of our facility and our future plans to expand our workforce to keep up with our steep growth trajectory. We took a big step in that direction last month by adding 5 highly skilled and experienced technicians and customer relations personnel to our core team.

If we were folks who liked to stand still, we'd be in the wrong business. Fortunately for us – and for our customers – “idle” isn't in our vocabulary. Our capabilities continue to grow every month, and this month is no exception. We're adding capes as we type. If it wasn't on our list last month, that doesn't mean it isn't today. We'll do our best to keep you informed of the latest additions, but in the meantime, let us know if there's a part we can help you with today.

Speaking of parts, what's on your hotlist? We're geared up and ready to help you make your customers, your boss, and your boss' boss happy with market-best pricing and quick turn-around times.

This edition wouldn't be complete without a tip of the hat to all the people and organizations who helped to make this year's MRO another roaring success. The Aerostar delegation had a great time seeing familiar faces and making new friends. By the way, if you happened to see the blushing woman with her pants caught in the escalator on the final day of the MRO, we can neither confirm nor deny that she was with us.

The145.com TOP SHOP Video. Check out Greg Guzman, President of Aerostar, and others.

Neighborhood Watch!

We try not to be nosy neighbors, but as we were peeking through the curtains as we were minding our own business, we couldn't help noticing Frontier Airlines' maiden flight out of our very own Brookley Aeroplex this month. It really is exciting to see the growth in our little neck of the woods, and it's a great excuse for you to pay us a visit.

Let us know when you want to stop by – we'll have a pitcher of sweet tea waiting for you.
