

December 2020

We Fix, You Fly

It's a Wrap

As 2020 comes to a close and we begin to put a bow on it (a super tight bow so it can't possibly escape), we wanted to say thank you to all of our customers and colleagues for sticking with us -- for sticking together. It has been a year unlike any other, but we've all found ways to adapt to business as UNusual. Even though it may be a few months yet before we start to see the benefits of the vaccines, 2021 will see the beginning of the recovery of our industry and of our nation's health. There's a lot to look forward to in the year ahead, and we look forward to getting there with you. So thanks again, Merry Christmas, Happy Holidays, and a Hap-hap-happy New Year to all of you and your families and your loved ones!

Somebody Had a Special Day

Greg Guzman, AeroStar's president, just celebrated his 20th anniversary in aviation this month. In chatting with Greg about hitting that milestone during the middle of a pandemic, he was quick to point out that this isn't the first time he's seen our industry take a big hit, only to adapt and bounce back. Said Greg, "What's motivated me most this year is knowing that Covid19 is not the first thing to rock the aviation world during my career. We worked together and we made it through the tragedy of September 2001 and then the first financial crisis less than a decade later. We will persevere."

Ho Ho Ho

We had a little Christmas luncheon with the team last week. The turkey was fantastic and very exciting! We also did some TOTALLY boring stuff like play several rounds of Dirty Santa and gave out gifts of liquor and cash like it was candy. Ho ho ho, indeed.

New Opportunities

We're excited to share that we have signed another

contract with a major 737 operator in the last quarter of 2020.

New Capes

Our team has worked hard to stay in constant motion. Take a look at what we are doing now!

C130 Capabilities

PART NUMBER	NOMENCLATURE	ATA/TO
